FRIDAY, APRIL 27th, 1935

Number 6

SCOUTS HAVE A WONDERFUL TRIP

Scouts, Cubs, Rovers and Girl Guides of Raymond and district had a great day on Easter Monday, when they journeyed to Calgary in a special train to meet the Chief Scout Lord Baden-Powell and his Lady, in a gigantic Scout Jamboree held there when 5,400 Scouters of all ages, including several troops of Guides met the International Chief there on his world tour, and had a privilege which has been denied many older people who have labored for the Scout cause.

The special train left Raymond about 9 a.m. and was routed over the Aldersyde, arriving in Calgary at 2:30, and leaving again about midnight, getting into Raymond at 5:30 with a load of tired and heavy-eyed passengers, who had nevertheless greatly enjoyed the day, and will look back upon it for years as a highlight in their lives.

The large arena was inadequate to hold the entire group, and as one troop finished their stunt they had to go out of the building to make room for the others and this was the cause of considerable disappointment to the boys, who had expected the hope of seeing the entire program. However they took it like good scouts and made the best of it. Then too, despite all arrangements for a big crowd, there were more visitors than had been anticipated, and supplies in the kitchen diminished rapidly and necessitated rushing around for replenishment. All in all, though, the Raymond visitors had a great time, and greatly enjoyed seeing and hearing the Chief Scout, who in their Scout teaching is held up as an example of the finest and best in Scouting.

Locally the work will receive quite an impetus, as the boys who made the trip labored hard to get their uniforms and money for the trip, and these uniforms will add greatly to the local Troop work in the future.

Commissioner Fawns and his assistants are to be congratulated for the splendid way in which they handled the details of the trip, and the parents of the boys certainly deserve commendation for their co-operation, without which the trip would have been impossible.

Of special mention is the splendid co-operation of the C.P.R. officials, two of whom were here in Raymond, preceding the excursion, checking up to see that everything was arranged for, so that there would be no disappointments nor oversights. This added greatly to the pleasure of the trip. There were 22 cars in the train that started from here when it arrived in Calgary.

With the sudden death of Henri S. Beland, Senator from Quebec, of a heart attack Monday, the vacancies in the Red Chamber at Ottawa have reached 13. This is quite a list to fill and will require some careful choosing.

Folks who desire to keep in touch with the activities of the Church will find a great deal of information and inspiration in the Church section of the Desert News. This can be obtained at a very reasonable rate and like most papers is worth many times its cost.

Statistics show that there are more indoor hazards than outdoor. On the other hand we'd rather take a chance with the bathtub soap than with a two-ton truck.

Rotary Dance Is Successful

The Good Friday dance, Friday evening last sponsored by the Raymond Rotary Outpost was a decided success in every way except financially. The hall was nicely decorated, punch and wafers were served for refreshments, and everyone present had a very enjoyable evening. The local orchestra dispensed very tantalizing dance music, and Ira McBride as Master of Ceremonies had a number of mixers which succeeded in getting everyone acquainted with everyone else, and the merriest continued until the last dance.

President Norris Stolze of the 4th District Rotary, President Ernie Wilson of the Lethbridge Club, Gavin Houston, Erle Eisenhauer, and several other Lethbridge Rotarians with their partners, were present and enjoyed the evening with the rest of the dancers. Funds from the evening's entertainment will be used toward defraying the cost of the gymnasium equipment which the Club had installed in the Opera House last winter, and other means of raising the balance will have to be devised by these in charge.

The local Outpost wish to extend their appreciation to all who assisted by their presence in making the evening a success.

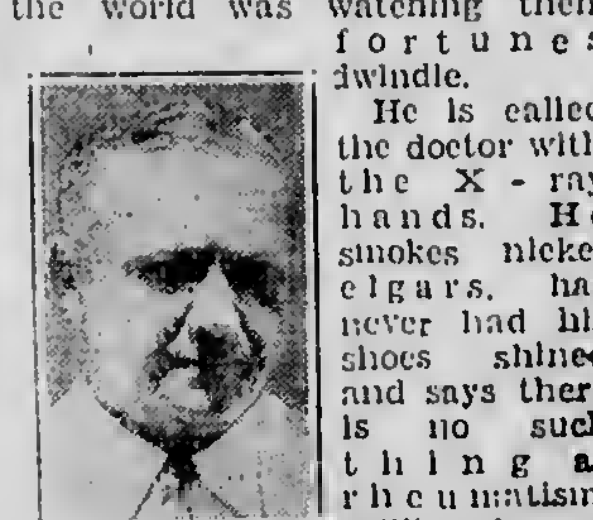

The Post Office, bank and several other stores and offices were closed Friday, while most of the business places on the street remained open for business, and closed on Monday.

Mrs. Howard Oliver of Calgary spent last week with her parents here in Raymond. Howard drove down Saturday afternoon and spent Sunday and Easter Monday here.

Of course, the pedestrian has some rights as well as the motorist. But as one wag chortles, they're usually last rites.

LIBERTY'S CANADIAN HALL OF FAME No. 7

Without equipment or advice, Dr. Mahlon Locke of Williamsburg, Ontario, made a million dollars during the four years, and during which everybody else in the world was watching the fortunes of a swindle.

He is called the doctor with the X-ray hands. He smokes nickel cigars, has never had his shoes shined and says there is no such thing as a free lunch. Williamsburg has increased in population from 300 to 2,500 since he has been holding forth there.

Dislikes rich people, though he is wealthy himself, and owns the largest privately owned laundry in the world. Charges a dollar to twist a patient's feet twice and \$10 to deliver a baby. Has never had a mother die in childbirth during twenty-four years of practice. Lives on Main Street with his wife, who still washes the clothes, although they employ three servants. Works sixteen hours in the rain sometimes. Says he will never retire and doesn't know what to do with his money. Hopes his son, Parker, will follow in his footsteps. Never sends out a bill or listens to his patients unless they're old timers. Treats women in the kitchen. Has less privacy than a gold fish and hates it.

GOLF CLUB REORGANIZED

The Sugar City Golf Club held a well attended and enthusiastic meeting in the Town Hall Thursday night, when the reports of last year were presented and accepted, and a hearty vote of thanks extended to the officials for their very successful handling of the Club's affairs.

The election of officers for 1935 resulted as follows: President—Dr. G. W. Leech. Vice-Pres.—O. H. Snow. Sec.-Treas.—H. J. McKean, (re-elected).

Executive Committee: Frank Hall, C. R. Wing, H. F. Allen, E. A. Price, F. Crammer, I. Kitchen.

Ladies Executive: Mesdames C. D. Compton, S. B. Card, J.

Kitchen, A. H. Zabriskie, Lee Brewerton, G. W. Leech.

The past year was decidedly successful, and the Club look forward to an even better year in 1935. The course was in splendid shape last year, and was the joy of local golfers, and the envy of many from other towns who came here to play over the course. A caretaker will be appointed shortly, and a Grand Opening, similar to the one held last year will likely be announced in the near future.

All those interested in learning how to play golf should get in touch with some of these officials, who are all anxious to assist the beginners and make them feel at home on the course.

TAYLOR STAKE HONOR DAY PROGRAM HELD

A good crowd was in attendance at the large display of hobbies and handicrafts.

The programme opened with the congregation singing "Put your Shoulder to the Wheel" invocation: R. Low of Magrath.

Stake Pres. Paul Dahl congratulated the members in the play were: Lal Priel Passey, Franklin Smith, Alvin Jones, John H. Wall, Ina Hawk, Berice, Katherine and Genevieve Bennett, Deva King, Max Heggie, Wayne McMullin, Shirley and Lou King.

Story—Magrath Second Ward Song—Raymond First Ward Frank Taylor and Co. One Act Play—Magrath First Ward, "Etiquette". The cast included Fannie Taylor, Avilde Bridge, G. L. Merkle, Betty Bridge, Sarah Ehlert, LaMaur Harter, and Martin Miller.

Presentation of Awards—the different wards in the Taylor Stake M. I. A. was made. Awards were given for achievements in the different activities such as music, drama, etc. Magrath First was awarded 2 seals which meant that they had gained recognition in three activities, Raymond First 3, Magrath Second 4, Raymond Second 5, Stirling 5, Welling 3. Kenneth Stone gave a demonstration of the M. I. A. Dance.

The remainder of the evening was spent in dancing.

The remainder of the evening was spent in dancing.

NEWS NOTES

Mrs. D. C. Peterson spent the Easter holidays here with her parents, Mr. and Mrs. D. A. Bennett.

Bishop E. S. Heninger of Magrath was a Raymond visitor Tuesday.

Miss Wyora Scoville was home for her Easter vacation from her school teaching at Leavitt.

Lincoln Wood, who was forced because of ill health to return from France at the end of 18 months' missionary work, was on the streets Tuesday, and stated that the air of southern Alberta was apparently effecting the cure he needed as he was feeling much better every day. He is looking pretty good too.

While the storms may delay seeding a little, they will kill a lot of hopper and cutworm eggs and a warm spring with so much moisture will give the crops a start that may easily put them ahead of the weeds and pests too. Anyway we can't change the weather so let us enjoy it.

Hardy Brewerton returned on Saturday from a short business trip to Salt Lake City. He hit a storm almost as soon as he left Salt Lake City and it recommissioned him right into northern Montana. His wife and two sons returned with him.

A terrific earthquake in February on Sunday killed over three thousand people, causing very heavy property losses and much suffering.

Southern Saskatchewan had its first dust storm of the spring on Sunday, although it was not so severe as those of last year.

Sam Dyeon has received the renewal of his broadcasting license for 1935 and 1936 and will continue his short wave work.

Weather on Friday last was just about perfect and those who holidayed certainly enjoyed a beautiful day.

Some are commencing to worry already about the wet spring. Take it easy. We have been hoping for something like this for the past four or five years. We still have plenty of time to get the crops in.

Mr. and Mrs. Alma Betts returned recently from a motor trip to Salt Lake City where they attended Conference. Their names were omitted from the columns of last week's paper.

Messrs. Win, Redd and S. I. May were the speakers in the Raymond Second Ward last Sunday evening, on the subject of Easter. Miss Estelle Scoville gave an Easter song, and Miss Nella King and Robert Walker repeated their school readings, with which they won the right to represent the Raymond School in the coming Festival.

Clyde Spencer, who has recently returned from a short term mission to the eastern provinces, was a visitor in Raymond Saturday and a caller at the Recorder Office. Clyde says he enjoyed his mission fine, only it was too short.

NOTES ON THE COUNCIL MEETING

School-Boy Boners

Rote means something you have put down on paper.

Gruesome means a thing that has got larger.

Issue is the start of a question like: "Issue going home yet?"

Alexander the Great was born in the absence of his parents.

The chief clause in Magna Charta was that no free man should be put to death or imprisoned without his own consent.

Columbus discovered America and was the first man.

A donkey is known as a stubborn animal because it never misses when it kicks.

A skyscraper is an overtimed hat.

The Crystal Palace is where the English King and Queen reign.

A pilot is a promoted sailor to do all the work on deck. His duties are to see that every ship comes into port perfectly clean and has no disease.

To remove air from a flask fill the flask with water, tip the water out and put cork in quick.

The Panama canal is where they make hats.

A grass widow is the wife of a dead vegetarian.

AUGUST OR SEPTEMBER SEEN AS LIKELY ELECTION DATE

Canada waited today for news from political party headquarters that will send some country advance guards in the oratorical battle for seats in the nation's 18th parliament. River.

This capital remained quiet as most government and opposition members continued to enjoy the Easter holiday, but announcement of east-to-west spending tours was expected within a day or so.

Observers attached importance to a conference next Thursday between health minister from most of the provinces who will meet here for sessions that may last two days. The ministers are expected to discuss such subjects as health insurance and state medicine.

The Easter recess will last till May 20 and the legislature are expected to finish their business some time in June, ready for an election in August or September.

Prime Minister R. B. Bennett is on the high seas bound for England to take part in King George's Silver Jubilee celebration. Before he embarked he telephoned Sir George Perley, acting head of the government, and also talked with his Ottawa physician and made what was described as a satisfactory report on his condition. Lethbridge Herald.

There were some snowflakes so large this morning that they looked almost like snowballs. We presume this storm came so there would be no May snow storms.

The Town Council met in regular session last Thursday evening, and handled an accumulation of matters that kept them busy for over three and a half hours. The minutes of the last meeting, and the Cash Report for the month were passed as the first items of business.

A petition regarding the damage done by seepage from the Swimming Pool was read and tabled, pending the decision of a local Club who have proposed making this site into a first class pool with proper drainage facilities. Two old age pensions were passed, and other relief matters dealt with.

The fixing up of the Stampede Grounds for this year's show was discussed, some, and Mayor Meeks, and Councillors I. B. Roberts and D. A. Bennett were appointed as a Committee to represent the Town in this matter.

The Council decided to drain and grade the road east from Broadway to the School of Agriculture, and to keep it up with the hope of later planting trees on both sides of this street to give an adequate setting to the beauty of the grounds and building on the A. C. property.

The dam, which had been threatened because of high water during the thaw and run off following the last storm, was cussed, and a motion was passed to have blue prints and surveys made of the proposed dam in the Alfred Coules, with the approximate cost, and to forward this information to the Dominion Government for them to have on hand in connection with their proposed reservoir and reclamation service on Milk River.

Farmers north of town had proffered to gravel the road around Temple Hill, if the Town and Municipality would grade the road and provide means of loading the trucks and wagons. The Town decided to accept the offer.

It was also decided to beautify the lot immediately north of the Town Hall, and to plant some trees in Memorial Park, as a start towards a beautification program. The Secretary was authorized to spend \$50 for trees and shrubs for this program.

The report of the Librarian and the monthly payroll were read and passed by the vote of the Council.

A few farmers started work on the land Saturday morning, but in most cases the ground was too wet, and they waited until Monday.

Henry Gibb took out a Massey Harris Tractor and Tiller combine this week from the Local agent R. D. Strong.

The rain and snow of Tuesday was rather erratic. "Mutt" said there was hardly any rain in Lethbridge, but he met it at Henderson Lake on the way home. It was reported that Bow Island had six inches of snow and a heavy rain which our "on and off storm" was in progress.

The members of Miss Mary Walker's Sunday School class met at her home Friday evening and enjoyed themselves in an Easter party. Games of various kinds and refreshments occupied the time of the evening and they all enjoyed a very nice time. About ten were present.

There is hope even for the fool driver. The lordly oak was also once a nut.

UNEMPLOYMENT AND CHARACTER

In common with other countries, Canada is wrestling with one of the most vital problems of the day, in endeavoring to handle the problem of unemployment relief so that recipients will still be able to maintain their character and not turn out to be a generation of "professional bums."

On our recent trip, not mentioning it, except for the opportunities for observation and for study it afforded, we discovered many communities where healthy and able-bodied men were so fully satisfied with the program of relief that they sternly refused to accept honorable labor, which would have permitted them to be self-sustaining, but chose rather to continue to be wards of the government and were content to let well enough alone, continue on with what they had and let someone else worry about their keep.

To a certain extent we are faced with the same situation in Canada. Year by year we are increasing our Provincial and National debt in an effort to care for a vast population of unemployed, who a few years ago were content with the necessities of life when unable to obtain work, but today are demanding a higher scale of living than a large percentage of those who are still working and and trying to be self-sustaining. Hunger strikes are rather common, and in these people are demanding that which means an ever-increasing burden on the taxpayer, with but one final, the defeat and discouragement of those who are still trying and facing the prospect of a bankrupt country.

Various means have been

suggested. Some modifications have been tried, and yet it is rapidly getting to the point of the tail wagging the dog, instead of the dog wagging the tail. Unemployed should be reminded gently, but forcibly if they insist, that every dollar spent for unemployed relief is an added burden for Canada's tax payers. We see young men loitering continually in many places where little of good can be learned, and this is not altogether a matter of choice, because they have to do something, and many of them have never learned to employ their idle time at something more profitable and pleasant. Several ideal ideas have been put forth to alter this, and the one that appeals most to us is the idea of putting the older ones on relief and putting the young and rising generation to work.

In addition to lowering the pension age as a number have suggested, why not take the money now being paid for direct unemployment relief, and as far as is possible with this amount, pay it to the older salaried workers in regular employment, and get them out of their jobs and thereby create employment for the younger ones, and then they would work because it meant eats and clothing and advancement.

Without any argument as to increasing or reducing the cost, we would have one great moral problem solved. Our courts today are filled with law breakers of the younger generation. They have nothing to do in many instances, but think up delinquent and nothing else to do but carry out their ill-born ideas. Putting them to work would solve a great many of these problems, and tend immediately to lessen crime, because eight or nine hours a day will give them a relish for a good night's sleep instead of a lot of jay walking.

Then too, many parents are so busy today trying to make a living that they have to neglect their home, and families, and leave them to bring themselves up or be dragged up by the environment in which they are placed. People past 45 have already learned how to occupy their time in study, self-betterment and beautification of homes and surroundings. In

most cases, too, they have lost any desire for extravagance, and have learned to appreciate value; and a dollar here would do twice as much service as a dollar to those who are still in the kindergarten of life.

This would present its problems, we know, but, if in the end it schooled youth to an appreciation of life, work and opportunity and gave the older generation a chance to enjoy life and to beautify their homes and surroundings and make the world a better place to live in, it would be manifestly better than our present plan, which to many instances tends to full stomachs and empty minds; run-down homes and surroundings, and worst of all the desire lost to be self-supporting and to stand on one's own legs.

The right of way:

Whether it's yours or his to take,

Give it to him for "Safety's Sake."

BEWARE OF THE CLOTHES MOTH

The damage caused by clothes moths in Canada every year is extensive and the prevention of that damage requires the exercise of care, forethought, and vigilance, states the Dominion Entomologist, Dominion Department of Agriculture. Articles of clothing and other materials subject to attack should not be left undisturbed for long periods, particularly during the summer months, in such places as cupboards, attics, and trunks, unless adequate precaution have been taken to protect them. The articles after being thoroughly brushed, preferably in strong sunlight, should be placed in well made trunks or chests with tightly fitting lids, or enclosed in cotton or paper bags or in cardboard boxes sealed with paper strips. Wrapping clothing in two thicknesses of strong wrapping paper, taking care that the edges are turned down so that no moths can gain entrance, is also recommended as an alternative measure. According to the Dominion Entomologist one pound of fresh naphthalene flakes, or a similar quantity of paradichlorobenzene

APPLICATIONS
FOR STOCK
GRAZING

PUBLIC NOTICE is hereby given by the Department of Lands and Mines to the effect that the grazing of stock is to be authorized between the 15th of May and the 31st of October, 1935, inclusive, in that portion of the Government Grazing Reserve, Township 1, Range 19, West of the 4th Meridian, lying to the south of Milk River, on a basis of .35c per head per month, payable in advance.

Applications must be made to the Agent of Provincial Lands, Lethbridge, on or before the 30th of April, 1935, so that an allotment may be made in keeping with the grazing capacity of the reserve.

Any applications received after the 30th of April, 1935, will be only considered if the necessary accommodation within the reserve is still available.

FROM A STAFF OF SEVEN TO SIX THOUSAND STRONG

From less than a corporal's guard to the equivalent of six regiments—this graphically illustrates the growth of the Bank of Montreal's staff in 117 years.

On the 23rd of August, 1817, the first four employees of the Bank of Montreal were appointed. They were the cashier, an accountant, a paying teller and a second teller. Shortly afterward a discount clerk, a second bookkeeper and a porter were added.

These seven constituted the original staff when the modest establishment on St. Paul Street in Montreal

opened its doors on Monday, November 3rd—an establishment which was destined to play a conspicuous and beneficial part in the development of Canada's resources.

Throughout the many decades that have followed, the Bank of Montreal has made increasing effort to provide a banking service always adequate to meet the requirements of Canada's development.

The original staff of seven has grown to 6,300, loyally serving the public through 500 branches extending from sea to sea—and overseas.

Beauties With Their Beasts

Just another beauty and the picture, but the beasts are loved by the beauties. In a group of feminine and masculine beauty, the beauties are shown with their dogs. From three nations, Canada, the United States and Great Britain, the hand-picked beauties were acquired by them during a visit to Ceylon. They are bringing them home in their baggage—pardon us, trunks, but that won't be until their world-cruise in the Canadian Pacific liner Empress of Britain is over in May. The picture was made on the board-deck of the Empress of Britain at Colombo.

WEEKLY LETTER

CROP TESTING PLAN FOR DETERMINING PURITY OF FARMERS' WHEAT SEED

The crop testing plan inaugurated in 1932 has since become widely recognized by grain men and farmers generally as an exceedingly simple and effective means of determining pur-

ity of seed varieties used by individual farmers. With wheat particularly a high standard of quality is vitally essential in selling on the overseas market. While soil and climate play an important part in determining quality, the varieties grown, and their purity or freedom from undesirable types are also of the utmost importance. For this week's letter W. D. Hay,

Assistant Superintendent in cereals at this station, has outlined this crop testing plan which is being continued here this year.

Four ounce samples of wheat are used. These are collected and sent in by elevator agents and by individual farmers. The samples are grown separately in small tests plots and designated by number only to avoid disclosing the names of the farmers from whom the samples are received. Just previous to ripening a field day is held when each plot is examined to determine its purity of variety and farmers are given opportunity to inspect the plots, to see the wheat grown from their own seed sample if they wish to learn how to identify different varieties.

At the same time each plot is classified according to its purity of variety. The various classes are designated as "A", "B" and "C." Plots classified as "A" are considered pure as to variety and the fields which they represent should provide good seed. Plots classified as "B" contain several impurities of varieties and farmers whose seed falls into this class are advised to take steps to provide themselves with better seed in the course of a year or two. Class "C" represents stock that is so badly mixed that it should not be used for seed.

This year several grain companies are co-operating by supplying samples and over a thousand different lots will be grown at the Lethbridge Station alone. In addition it is the wish to obtain samples from as many individual farmers as possible and particularly those in close proximity to the station. Any who wish to have their wheat tested for purity of variety are asked to send in a four ounce sample within the next few days if possible. Postage is required and samples should be addressed to the Experimental Station, Lethbridge. As many of these samples will be tested as time and plot space permits.

The value of the information to be obtained can scarcely be over estimated both to individual farmers and the Canadian wheat growers generally. A number of new varieties have been introduced during the past fifteen years. Most of these have been quite satisfactory when grown under conditions for which they have been adapted and where purity of variety has been maintained. However in too many instances mixing of varieties has taken place endangering the high reputation of Canadian wheat. The crop testing plan outlined above offers a feasible means of overcoming this danger and farmers generally are urged to co-operate in carrying it out.

Save a minute and lose your life—or—lose a minute and save your life? Any old horse knows the answer to that one!

The Franco Oil Co. well at Girdston is still going down, and very favorable showings have been encountered the past two or three days. The larger rig is working very well, and can if necessary go down 7,000 feet.

Because of a motion to reduce membership in the Provincial House, and the need of a special session to deal with this no date has been suggested for the Provincial election.

North Alberta is suffering from floods and high water, and the town of Whitecourt is menaced as ice jams continue to pile up. Two bridges have been swept away and the water is from 10 to 15 feet higher than it has been known during the past fifteen years. Property damage is quite extensive.

Eggs were rather scarce here last week, and one store shipped in several cases from Magrath.

Want Ads

LOST—Black gelding, brand-new boot on right thigh. Lost from Don Wall farm. Reward. Call at Recorder Office.

LOST—Spare tire and rim 30x5.00, between R. J. Fansett's farm and Magrath. Leave at Frank's Coffee Shop, Raymond for reward.

FOR SALE—One Team for heavy work on farm or road work. Inquire Heber Christensen, Raymond.

FOR SALE—One acre lot, close in, house with four large rooms, large barn, chicken coop. Enquire at Recorder Office.

Raymond schools will open again Monday after Easter holidays. The school days during April, what with the Easter vacation, and the Quarantine, have been rather few. To the extreme joy of the pupils.

Dances and entertainments for all ages were held in the Second Ward Hall Monday commencing at 4 p.m. Good crowds were present at all the functions.

THE WAY TO Beauty

CORRECT POSTURE FOR POISE

The poise that you admire so much in sophisticated women is, you will discover, greatly a matter of standing and walking correctly. I have seen home by women, with a graceful carriage, attract the attention away from women who were far more beautiful and yet who slouched.

A graceful carriage comes from good health, and an abundance of energy and exercise in the form of tennis, swimming or just walking will help develop a smart, rhythmic walk.

But grace and ease of carriage are attained in many ways. In this let us take a lesson from the natives of the South Seas, who carry heavy water jars with so little effort on their heads. It is truly delightful to follow their relaxed, rhythmic walk. Practise this with a book on your head, and you will soon realize how controlled your muscles must be to accomplish this perfect balancing.

Strong limbs will give grace and vitality to your walk. You should therefore strengthen these muscles with leg swinging exercises and high kicking. The muscles of the thighs can be exercised by standing on tip toe, then slowly coming to a squatting position.

Awkward, heavy hips can be eliminated by rolling on the floor. Even if your family laughs at your antics, you will be rewarded by a slim, girlish figure.

Sleeping without a pillow is a certain way to avoid the bowager's hump on the back of the neck. If you will try it, I can guarantee that within a few weeks you would not go back to the pillow.

Correct posture is only attained by a vigilance that commences when you get up and ends when you fall asleep. You must always be careful to sit correctly and walk with head up and shoulders down. One day of careless slouching can undo a month of the correct posture. So don't forget ever for an hour!

If your back is tired, stand up and drop forward the upper part of the torso, forward and down, until you are hanging limp from the waist. This will rest and relax you.

Next week: Hands that attract.

For expert advice on your beauty problems write Women's Interest Syndicate, 126 Bloor St. W. Toronto, Ontario.

When you want satisfaction in printing and paper needs, call at the Recorder Office. Your satisfaction is our greatest pleasure.

Plans are under way now for a celebration on May 6th, of Empire Jubilee Day. Committees are being organized, and by next week the full details of the day's events will be organized and ready for broadcasting.

WANTED—A purchaser for typewriters new or old. Come in if you are interested. We believe we can help you to a solution of your needs.

BEET SEEDING JUST STARTED

Raymond district has succeeded in getting 25 acres of beets planted to date. A few fields were ready Thursday, and the drills made a start, just running nicely when the rain of last night put a stop to operations again. Unless the skies clear and the warm breeze blows this afternoon, seeding will be held up again until Monday. Over the beet raising area there are about 275 acres seeded.

The labor situation is clearing slowly, according to Company officials, with half of the acreage already signed up, and more contracts being signed each day. Some agitation is still going on, but officials are hopeful that before the crop gets to where it needs attention, that every acre will be taken care of under either a cash or crop share contract.

Earl Peterson, brother of Mrs. Loren Larsen, who lives in Vulcan, and Miss Phoebe Holman, whose home is in Magrath, but who has been in Calgary for some time, were married at the Alberta Temple on Thursday. Pres. E. J. Wood officiating.

Bishop Walker spent several days in Calgary last week on business.

Mr. and Mrs. D. A. Bennett were in Lethbridge last Thursday.
